

FEDERAL TECHNOLOGY LIFECYCLE MANAGEMENT

INTRODUCTION

Federal Technology Lifecycle Management supporting secure asset retirement, property accountability, data protection, audit readiness, and value recovery.

CORE CAPABILITIES

- **Secure IT Asset Disposition (ITAD)**
 - Chain of custody, serialized tracking, and documented disposition.
- **Data Destruction**
 - NAID AAA certified and aligned with NIST SP 800-88.
- **Exchange/Sale & Value Recovery**
 - Compliant value recovery supporting technology modernization under FMR 102-39.
- **Compliance as a Service (CaaS)**
 - Lifecycle reporting for accountability and audit readiness.
- **Supply Chain Protection**
 - Controls against data leakage, illegal export, and unauthorized reuse.

FEDERAL MISSION ALIGNMENT

- **Modernization**
 - Coordinates asset retirement with refresh and deployment activity.
- **Property Accountability**
 - Supports federal property controls and documented disposition.
- **Audit Readiness**
 - Produces defensible, IG-ready lifecycle records.
- **Value Recovery**
 - Returns eligible retired-asset value to modernization.
